Richmond, IN 47374

Dear Bulk Records Requestor:

In response to requests from numerous bulk data requestors for data from the Indiana Supreme Court's Odyssey case management system, we are exploring how to make bulk data available in a uniform manner. We are examining the most efficient and effective way to make certain specific standard data fields available to all bulk data requestors in one standard format.

To that end, we will be conducting an analysis so that we can determine how we extract the data from Odyssey, the amount of time involved, and the cost to the Division to create the file and to make it available to approved requestors. At the same time, we will be exploring a possible cost model for providing this information. Included in this analysis is the frequency that this data will be made available to all requestors.

Because our primary responsibility with respect to Odyssey at this time is the deployment of the system, we can't provide you with a specific time frame for when our research will be complete. However, we are cognizant of how important this information is to you, and we will make every effort to complete this task in a timely manner.

If you have any questions, please contact me at 317-234-5562 or jwalker@courts.state.in.us

Sincerely,

James R. Walker
Director of Trial Court Management
