Software Engineer Intern

Doxpop, LLC, an information services company, is offering paid student internships for Java developers to work with members of its development team. The successful candidate will assist and be mentored by Doxpop employees in the creation and learning of mission-critical information systems by designing, developing, testing, deploying, and maintaining innovative software applications utilizing a wide range of current and emerging technologies. Doxpop partners with local and state governments to make information and services available via the Internet and mobile technologies.

The ideal candidate: will be pursuing a Bachelor's degree or equivalent; be taking courses to acquire skills or knowledge to develop web-based application software utilizing Java, SQL, and HTML. Interest in and experience with any of the following may be helpful: Linux (Debian/Ubuntu), Apache Web Server, Tomcat, Jetty, PostgreSQL, JavaScript, JQuery, Cascading Style Sheets (CSS), Vue, SOAP, JAX-WS, JAX-RS, XML, Django, NIEM, Python, bash, and Amazon Web Services (AWS).

The position requires: a general understanding of computer, database, and networking technologies; excellent written and oral communication and interpersonal skills; a eagerness to learn; the ability to create, document, and maintain software you have written; the ability to study, integrate and enhance software written by others; the ability to work independently and with others as a team; the ability to gracefully accept direction from others; and, an attitude of cheerful service in occasional opportunities for interaction with customers, government data providers, and technical partners in other organizations.

The person accepting this role should plan to live in or near Richmond, Indiana for the duration of the internship. Applicants must be currently legally authorized to work in the United States. Doxpop values workplace diversity and is an equal opportunity employer.

We are accepting applications on a rolling basis and will respond to each applicant within 30 days. Summer internships are typically full-time for 12 weeks. School-year internships are typically part-time for up to 9 months. Please apply at least 30 days in advance of when you would like to start an internship.

Please email your letter of interest and resume to Ray Ontko <rayo@doxpop.com> (cc: Josh Ward <joshw@doxpop.com>).

Finalists should expect to provide representative samples of code and documentation they have written, academic project work and contact information for at least three academic, employment, or character references.
